

*Your Safety is
Our Priority*

at **RDA VEDANTA**
we are ready to drive
the new era of electrical equipment
focused on energy conservation

*Your Safety is
Our Priority*

Your Safety is Our Priority

Welcome to the world of **RDA VEDANTA**. One of the reputed name in the field of Wire and cables, Switchgear, Conduit pipe and fittings and other electrical products.

The company is well geared up to meet the demand of changing environment by making investment into futuristic designing and business system. Through our innovative and intuitive technology, we are pioneering a manufacturing evolution by making the process easier and faster. From imperative and strong R&D capability to in house manufacturing. For us quality control is not just a process but a mission **"YOUR SAFETY IS OUR PRIORITY"** and with this motto, every product from each batch has to get pass through stringent quality control procedure at every stage at manufacturing plants.

The company continues to seek innovation to stay ahead of the fast-moving technology with a higher rate of customer satisfaction, RDA VEDANTA promises to accomplish many more milestone in the near future with the support of our esteemed channel partners.

Few Words From Our Managing Director

We proudly announce our contribution in the zero-carbon emission mission towards **Green Earth** by making energy efficient products, thus reducing energy consumption

Ritesh Agarwal
Managing Director
RDA Electricals Pvt. Ltd.

*Your Safety is
Our Priority*

- Multi strand 100% pure annealed Electrolytic grade copper conductor.
- FR/FRLSH grade insulation confirming IS standard
- Renowned supplier in various Government & Institutional projects.
- Approved from UP-PWD

Your Safety is Our Priority

FR/FRLSH CABLE

- Electrolytic grade 100% pure annealed copper.
- High insulation resistance.
- Range – 0.5 sq mm – 25 sq mm

ALUMINIUM TWIN CABLES

- FR & Weather proof grade PVC
- Aluminium are stranded round or compact
- Comes in white & black colour & in 2,3,4 core

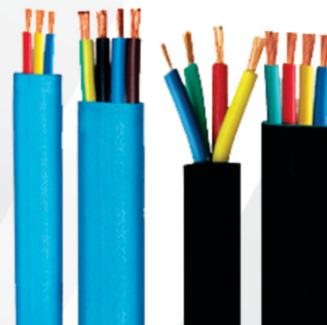

POWER CABLES

- Steel wire armour provides mechanical protection
- Be buried directly and used in external or underground projects.
- Range – 4 sq mm – 1000 sq mm

SUBMERSIBLE CABLES

- Electrolytic grade 100% pure annealed copper
- The tough robust outer PVC jacket protects it from the oils, grease & various chemicals, thereby giving long life and electrical safety.

*Your Safety is
Our Priority*

- ELEGANT DESIGN
- EPOXY POWDER COATED
- PURE ELECTROLYTIC GRADE OF COPPER FOR BETTER CONDUCTIVITY.

Your Safety is Our Priority

SIGNATURE SERIES

- Grandiose design.
- Epoxy powder coated.
- Free lug for more safety.
- Enclosures are made up of CRCA sheets which prevents from rust, dust & rain & are compact in design
- Range – 4 way – 16 way (Single Pole Neutral)

BUSBAR IMAGE

- Elegant Design.
- Pure electrolytic grade of copper for better conductivity.
- Both side detachable gland plates with knockouts.
- Range – 32 Amp – 400 Amp.

CHANGEOVER SWITCH

- CRCA sheet
- Epoxy powder coated enclosure with silver plated copper current carrying parts.
- Available in – Double pole and Four pole
- Range – 16 Amp – 100 Amp

KNIFE TYPE CHANGEOVER

- Current conducting parts which performs making & breaking mechanism are in knife shape.
- Fitted with strong operating handles.

*Your Safety is
Our Priority*

CEILING FANS & FARRATA

- ANTI DUST
- EXOTIC RICH LOOK WITH MODERN STYLING
- MULTI STAGE PAINTING FOR LONG LIFE

Your Safety is Our Priority

COMPASS

- Exotic rich look with modern styling.
- Wide oscillation with control.
- High efficiency motor with double ball bearing.
- High speed fan comes in 50 Watt with 400 RPM.
- Available in Rose Gold, Satin Gold, D-brown, Floral white.

FRESH AIR

- Aero dynamic balanced metal blades (silent vibration free operation).
- powerful motor delivers high air thrust.

TITAN

- 220 watt, 2800 RPM
- Aerodynamically designed blades for superior air delivery.
- Designed with an adjustable height.
- Full copper winding with aluminium body.

VENTILATION FAN

- Resin body & blade for easy maintenance.
- modern design, fashionable & elegant look.
- High speed motor & silent operation with full copper winding.
- Available in – 150mm, 200mm, 250mm.

*Your Safety is
Our Priority*

Conduit Pipe and Fittings

Your Safety is Our Priority

- Superior Rigidity
- Socketed One Sided Design To Simplify The Joining Of Multiple Units.
- Durable & High Impact Resistance.
- Corrosion Free.
- Smooth Finish From Inside, Makes The Pulling Of Wire Easier.

*Your Safety is
Our Priority*

HEATING RANGE

Your Safety is Our Priority

METAL HEAT CONVECTOR

- Thermostate For Temperature Control.
- Portable Design
- Side Air Inlets
- Night Light
- Adjustable Height
- 2000 Watt

PVC BLOWER

- Adjustable Thermostate Control.
- Power Indicator Light.
- Overheat Safety Cut Out
- Available In – 1000/2000 Watt

ROOM HEATER

- Elegant Looks.
- Instant Heat Provider.
- Epoxy Powder Coated.
- Available In – Single Rod & Double Rod.

IMMERSION ROD

- Decent Look.
- Heating Element With Extra Long Life
- Water Level Indicator
- Water Proof
- Available In 1000/1500 Watt

*Your Safety is
Our Priority*

ELECTRIC IRON

Your Safety is Our Priority

CRYSTA

- Stylish Look
- 100% Aluminium Soleplate For Uniform Heat.
- Iron Temperature Ready Light.
- 750 Watt For Faster Heating.

BMW

- Elegant Look.
- Light Weight.
- Auto-Cut Function.
- 750 Watt for Lower Consumption.

PLANCHA

- Heavy Weighted.
- 750 Watt.
- Golden Soleplate.
- Adjustable Temperature Control Knob.

ROCKY

- 550 Watt For Lower Power Consumption.
- Heavy Weight.
- Strong Handle.
- Durability.
