HEATING RANGE

# IRONS RANGE

**BULLET**  
1000 Watts  
Model No. VDP505

**BMW**  
750 Watts  
Model No. VDP510

## A WIDE RANGE OF IRONS

**DELUXE**  
750 Watts  
Model No. VDP501

**MAXX**  
750 Watts  
Model No. VDP511

**PLANCHA SMART (GOLD)**  
750 Watts  
Model No. VDP508

**VIVA**  
750 Watts  
Model No. VDP502

## ROCKY

550 W

### 750 Watt for faster heating

750 Watt iron for faster heating and lower power consumption

### 100% aluminium soleplate for uniform heating

### Iron temperature-ready light

Indicator light goes off when the required ironing temperature has been reached.

RDA  
**VED-ANTA**

## DELUXE

**750 W**

### **750 Watt for faster heating**

750 Watt iron for faster heating and lower power consumption

### **100% aluminium soleplate for uniform heating**

### **Iron temperature-ready light**

Indicator light goes off when the required ironing temperature has been reached.

## CRYSTA

**750 W**

### **750 Watt for faster heating**

750 Watt iron for faster heating and lower power consumption

### **100% aluminium soleplate for uniform heating**

### **Iron temperature-ready light**

Indicator light goes off when the required ironing temperature has been reached.

RDA  
**VEDANTA**

VIVA

**750 W**

**750 Watt for faster heating**

750 Watt iron for faster heating and lower power consumption

**100% aluminium soleplate for uniform heating**

Iron temperature ready light

**Iron temperature-ready light**

Indicator light goes off when the required ironing temperature has been reached.

RDA  
**VEDANTA**

**MAXX**

**750 W**

**750 Watt for faster heating**

750 Watt iron for faster heating and lower power consumption

**100% aluminium soleplate for uniform heating**

**Iron temperature-ready light**

Indicator light goes off when the required ironing temperature has been reached.

RDA  
**VEDANTA**

## MAJESTIC

**750 W**

### **750 Watt for faster heating**

750 Watt iron for faster heating and lower power consumption

### **100% aluminium soleplate for uniform heating**

### **Iron temperature-ready light**

Indicator light goes off when the required ironing temperature has been reached.

RDA  
**VEDANTA**

**BMW**

**750 W**

**750 Watt for faster heating**

750 Watt iron for faster heating and lower power consumption

**100% aluminium soleplate for uniform heating**

**Iron temperature-ready light**

Indicator light goes off when the required ironing temperature has been reached.

## PLANCHA SILVER

**750 W**

**750 Watt for faster heating**

750 Watt iron for faster heating and lower power consumption

**100% aluminium soleplate for uniform heating**

**Iron temperature-ready light**

Indicator light goes off when the required ironing temperature has been reached.

## PLANCHA SMART

**750 W**

### **750 Watt for faster heating**

750 Watt iron for faster heating and lower power consumption

### **American Heritage Golden soleplate**

American Heritage Golden soleplate for easy gliding on all fabrics

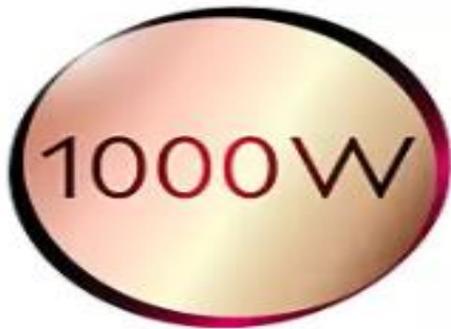

### **Iron temperature-ready light**

Indicator light goes off when the required ironing temperature has been reached.

## STEELCO

### 1000 Watt for faster heating

1000 Watt enables faster heating and uniform heat distribution.

### 100% aluminium soleplate for uniform heating

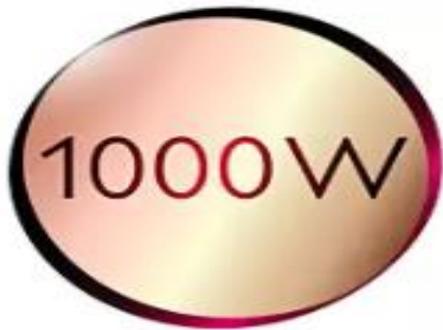

### Iron temperature-ready light

Indicator light goes off when the required ironing temperature has been reached.

RDA  
**VEDANTA**

## PLATINI

### **1000 Watt for faster heating**

1000 Watt enables faster heating and uniform heat distribution.

### **100% aluminium soleplate for uniform heating**

### **Iron temperature-ready light**

Indicator light goes off when the required ironing temperature has been reached.

## BULLET

### **1000 Watt for faster heating**

1000 Watt enables faster heating and uniform heat distribution.

### **100% aluminium soleplate for uniform heating**

### **Iron temperature-ready light**

Indicator light goes off when the required ironing temperature has been reached.
